

MASKS REQUIRED

Florence welcomes you to our spectacular community on the coast!

With hiking trails, beach access, parks for families to play, a marina, RV camping and many lakes north & south of town and of course the Florence Dunes, we offer something for everyone. On the business side, we have a diverse variety of restaurants, galleries and small retail shops offering everything from olives to clothes.

We are a modest community of approximately 12,000 people with one community hospital featuring very few covid-19 beds. Since this virus is very much still with us we want visitors and residents to be as safe as possible.

What we are asking is that you practice social distancing and wear masks at all times, especially when you are inside our small business establishments.

Thank you, enjoy your stay and have fun!
