

Miller Park Play Structure Update

It has been a long haul, but the new Miller Park play structure is finally here! The pieces of the play structure have arrived at our Public Works facility and are ready to be put together by the trained professionals at Buell Recreation. Installation of the new play structure is just around the corner.

Keep a watch on the City's website and social media pages about construction updates as they become available. There is also a live feed camera overlooking the demolition and construction of the new play structure available on the City Website. The link to the construction camera is <https://app.truelook.cloud/?code=2vs0csejfkkn872qe8wcgoqry> Additional information regarding the progress will be posted on the City's social media pages.

The coming weeks will be your last chance to say goodbye to Fort Miller. So, get out in that sunshine and give Fort Miller a grand send-off.

Please note that while Miller Park is under construction, you can still visit our other playgrounds around town. The "Tot Lot" at Miller Park located right next to Fort Miller will remain open during construction.

Demolition of old Structure begins June 19th

Construction of new Structure begins June 26th

Power of Florence Volunteer event July 22nd

Grand Opening August 1st before National Night Out

CONSTRUCTION BEGINS
